

Naissance d'une ile - Novi Otok...

This was amazing. It's a case of being in the right spot at the right time.

A yacht was traveling in the south Pacific when the crew came across a weird sight.

Look at these photos and try to imagine the thrill of experiencing this phenomenon.

A BEACH?

NO! Not a beach.

It's volcanic stones floating on the water.

WHERE 'S THE VOLCANO?

UNBELIEVABLE SITE SO I TOOK SOME MORE PICTURES. NO ONE WOULD BELIEVE IT.

THE WAKE OF MY SHIP.

STAY ON THE EDGE OF THE WATER

Then this was spotted, ash & steam rising from the ocean

**A plume of black ash...HUGE CLOUD.
COVERING RED EVEN THIS FAR AWAY**

**THEN THE SKY TURNS BLACK WITH ASH AND
THE OCEAN GOLD WITH SUNS REFLECTION**

OUT OF THE OCEAN MOUNTAIN PEAKS ARISE!

MORE ERUPTIONS ASH AND CLOUDS

THE MOUNTAIN PEAKS RISE HIGHER WITHIN MINUTES

A brand new island formed...

CREATION OF MOUNTAINS

You cannot imagine the thrill of being the first & only people to see a new island being formed where there was nothing there before!
