

BMES Meeting Minutes - May 2, 2007

Future board meetings

Once a month, we'll have an executive board meeting followed by a general meeting.

Membership fee

Membership fees (\$5) will be collected along with a T-shirt fee (\$10).

T-shirts

Will ask someone else (by Steve) to design them. When the design is complete, Priyanka will make the T-shirts by the beginning of next semester. Officer T-shirts will have slightly different design to show who officers are.

Getting to know BIOE freshmen

Frank will collect the list of new BIOEs from the Admissions office and send it to the college reps, who will contact their incoming freshmen.

Community outreach

Mariko will be contacting the Natural Science museum for the opportunity to make a booth about biomedical engineering; Cristen, Charlie, and Priyanka will help out. Also, we plan on volunteering in the museum and talking to local high school students about bioengineering. Email BMES@rice.edu to get involved!

Study break

To be held after the activities fair. There will be food, an industry talk, a general meeting, and collection of membership fees.

Revision to BMES constitution

Frank, Allen, and Priyanka wish to amend the BMES constitution. Approved by board members.

Please apply now if you are interested in becoming a National BMES member!

BMES national conference: Sep 26-29
