Dedicated to "changing lives through service to nature," the Student Conservation Association (SCA) is the nation's leading provider of conservation service opportunities, outdoor skills, and leadership training for young people. SCA volunteers and interns annually provide more than 1.2 million hours of conservation service - including trail construction, wildlife research, habitat restoration and environmental education - in national parks, forests, refuges and urban green spaces in all 50 states. Founded in 1957, SCA is a nonprofit organization headquartered in Charlestown, NH, with regional offices in Arlington, VA, Oakland, CA, Pittsburgh, PA and Seattle, WA.
