JOURNAL ARTICLES

G. Snyder, A. Aldahan, G. Possnert (2010) Global distribution and long-term fate of anthropogenic ^{129}I in marine and surface water reservoirs. *Geochemistry, Geophysics, Geosystems*, in press.

J. Dickens and G. T. Snyder (2009) Interpreting upward methane flux from pore water profiles *Fire in the Ice, National Energy Technology Laboratory Methane Hydrate Newsletter*, **Winter**, 7-10 [available online](#).

A. Hiruta, G. T. Snyder, H. Tomaru and R. Matsumoto (2009) Geochemical constraints for the formation and dissociation of gas hydrate in an area of high methane flux, eastern margin of the Japan Sea, *Earth and Planetary Science Letters*, **279**, 326-339 [available online](#).

G.T. Snyder, G.R. Dickens and D.G. Castellini (2007) Labile Barite contents and dissolved barium concentrations on Blake Ridge: New perspectives on barium cycling above gas hydrate systems. *Journal of Geochemical Exploration*, **98**, 48-65 [available online](#).

U. Fehn, G.T. Snyder and Y. Muramatsu (2007) Iodine as a tracer of organic material: ^{129}I results from gas hydrate systems and fore arc fluids. *Journal of Geochemical Exploration*, **98**, 66-80, [available online](#).

G.T. Snyder, A. Hiruta, R. Matsumoto, G.R. Dickens, H. Tomaru, R. Takeuchi, J. Komatsubara, Y. Ishida, and H. Yu (2007) Authigenesis in marine sediments of Umitaka Spur, Japan Sea: Distribution and implications for the development of gas-charged systems. *Deep-Sea Research II*, **54**, 1216-1239, [available online](#).

G.T. Snyder and J.T. Fabryka-Martin (2007). ^{129}I and ^{36}Cl in dilute hydrocarbon waters: Marine-cosmogenic, *in situ*, and anthropogenic sources. In: G.T. Snyder & J.E. Moran (Eds.), special issue: "The halogens and their isotopes in marine and terrestrial aqueous systems", *Applied Geochemistry*, **22**, 692-704, [available online](#).

J.E. Moran and G.T. Snyder (2007). "Preface: The halogens and their isotopes in marine and terrestrial aqueous systems". In: G.T. Snyder & J.E. Moran (Eds.), special issue: "The halogens and their isotopes in marine and terrestrial aqueous systems", *Applied Geochemistry*, **22**, [available online](#).

U. Fehn, J.E. Moran, G.T. Snyder, and Y. Muramatsu (2007). The initial $^{129}\text{I}/\text{I}$ ratio and the presence of 'old' iodine in continental margins. *Nuclear Instruments and Methods B*, **259**, 496-502, [available online](#).

H. Tomaru, Z. Lu, G. Snyder, U. Fehn, A. Hiruta and R. Matsumoto (2007). Origin and age of pore waters in an actively venting gas hydrate field near Sado Island, Japan Sea: Interpretation of halogen and ^{129}I distributions. *Chemical Geology*, **236**, 350-366, [available online](#).

G.R. Dickens, C.M. Donohue, and G.T. Snyder (2006). Dissolved fluoride concentrations in methane-charged sediment sequences. In: Tréju *et al.* (Eds.), *Proceedings, ODP Scientific Results*, **204**, [available online](#).

D.G. Castellini, G.R. Dickens, G.T. Snyder and C.D. Ruppel (2006). Barium cycling in shallow sediment above active mud volcanoes in the Gulf of Mexico. *Chemical Geology*, **226**, 1-30, [available online](#).

- C.M. Donohue, G.T. Snyder and G.R. Dickens (2006). Data report: Major cation concentrations of interstitial waters collected from deep subsurface microbial communities (ODP Leg 201). In: Miller *et al.* (Eds.), *Proceedings, ODP Scientific Results*, **201**, [available online](#).
- W.C. Riese, G.T. Snyder and W.L. Pelzmann (2005). The hydrocarbon system of the Fruitland Formation coalbed methane, San Juan Basin, Colorado and New Mexico, USA, in Warwick, P.D., ed., *Coal Systems Analysis: Geological Society of America Special Paper 387*, ch. 6, 73-111, [available online](#).
- S. Hurwitz, R.H. Mariner, U. Fehn and G. Snyder (2005). Systematics of halogen elements and their radioisotopes in thermal springs of the Cascade Range, Central Oregon, Western USA. *Earth and Planetary Science Letters*, **235**, 700-714, [available online](#).
- U. Fehn and G.T. Snyder (2005). Residence times and source ages of fluids from the KTB-VB hole, Germany: Interpretation of ^{129}I and ^{36}Cl results, *Geofluids*, **5**, 42-51, [available online](#).
- G.T. Snyder, I.P. Savov and Y. Muramatsu (2005) Iodine and boron in Marianas serpentinite mud volcanoes (ODP 125 and 195): Implications for forearc processes and subduction recycling. In: Salisbury *et al.* (Eds.), *Proceedings, ODP Scientific Results*, **195**, [available online](#).
- W.B. Lyons, K.A. Welch, G. Snyder, J. Olesik, E.Y. Graham, G.M. Marion and R.J. Poreda (2005). Halogen geochemistry of the McMurdo Dry Valleys lakes, Antarctica: Clues to the origin of solutes and lake evolution and age. *Geochimica et Cosmochimica Acta*, **69**, 305-323, [available online](#).
