

ditorium

Because of our proven expertise in the  
 chemical and petrochemical sectors, we  
 are able to provide you with the most  
 advanced and innovative solutions for  
 your business needs.

BASF's Advanced Catalysts Division  
 The production of chemicals and petrochemicals  
 products, pharmaceuticals, specialty chemicals,

- Catalysts for  
 • Chemicals  
 • Polymers  
 • Pharmaceuticals
- Catalysts for  
 • Petrochemicals  
 • Polymers  
 • Pharmaceuticals

**BASF**  
 The Chemical Company

**We make  
 adsorbents  
 different**

When the right  
 reaction matters...  
 Trust BASF Adsorbents  
 for Catalyst Substrates  
 and Ion-exchangers

**BASF**  
 The Chemical Company

Our broad portfolio of adsorbents...

- High thermal stability and high surface area
- Excellent mechanical strength
- Customized pore structure
- Excellent adsorption capacity

Global technical support and expertise  
 for all your adsorbent needs

**CRYSTAPHAZE**  
 Reactor Specific Solutions  
 for Technical Services

The 2017 Award for Excellence in Special Libraries  
**Joseph W. Johnson**

# A Peek into a Black Box: A Brief Review of Research in the Lunsford Group

Jack H. Lunsford  
Department of Chemistry  
Texas A&M University

## Acknowledgments

45 graduate students and 71 postdoctoral research associates

Profs. Michael Rosynek and Wayne Goodman

Major research support from the National Science Foundation, the  
Department of Energy and the Robert A. Welch Foundation
